

## **COR Certified**

J&G Urethanes/ Superior Spray Systems is pleased to announce that after a full year of hard work and waiting. We have been officially awarded our COR Certificate of Recognition program.

COR™: The Certificate of Recognition program (COR™) is an occupational health and safety accreditation program that verifies a fully implemented safety & health program which meets national standards. The objectives of COR™ are to provide industry employers with an effective safety and health management system to reduce incidents, accidents and injuries as well as their associated human and financial costs. COR™ is now frequently used as a pre-qualifying and/or condition of contract by public and private project owners across Canada.

COR™ is nationally trademarked and endorsed by participating members of the Canadian Federation of Construction Safety Associations (CFCSA). Although COR™ is the national standard, COR™ must be attained in the province or territory you are working in.

Each of the participating members of the CFCSA act as the Authority Having Jurisdiction to grant COR™ Certification in their Province or Territory and practices the utmost diligence to ensure that the COR™ standards are upheld.

J&G Urethanes/ Superior Spray Systems is very proud to have received this award and are very excited for the new opportunities to come new this journey.
